IaaS from Space

We are building the **next** generation space data architecture for multi-use capabilities with **Agentic AI** powered systems.

D2D
WAN [Wide Area Network]

Powered by Gauss

A private segmented network of networks to ensure **no-one can see in your device** in shared spaces like conference rooms, stations and condo’s

Ensure **consistent high speed** access

Enable **safe measures against AI** and futher development of AI models.

Argo Protocol

Powered by Gauss

Private secure MESH VPN Wide Area Network Service for Large open spaces.

Unlocking web 3.0 and beyond IoT options for robotics, AI & smart environments

Share hardware and Share IP privately and securely

Securing the network and domain from Cyberinfrastructure attacks.

Commercials
